Our mission

Tribe enables Artists and Creators to finance their projects and monetize the resulting works of art. Fans discover new independent artists and back them with an investment. Contributors join projects and help with their expertise. Contrary to existing crowdfunding platforms, they become part of the project and get their fair share of the future revenue. Built on trustless blockchain technology, Smart Contracts guarantee unprecedented security and transparency.

We love arts and creativity and are musicians ourselves. We're a VC-funded startup founded in 2017 and based in Vienna, working with young, innovative startups in the music space. We're funded by [aws](#), were part of [Aeternity Starfleet](#) and are currently participating in [Inits](#) and [YC Startup School](#) (Advisor Track). We ❤️ and contribute to [Open-Source-Software](#) and are a member of the [Open-Music-Initiative](#).

What we need from you

- Front-End development with React.js
- Backend development with Node.js
- Implementing a REST or GraphQL-API
- Developing with web3.js / Metamask
- Documentation and Testing

What we're looking for

- Experienced in Node.js
- Experienced in React.js
- You have built Web Apps or APIs in the past
- You're a quick and avid learner and are interested in new tech and solutions
- You have a passion for art and creativity and love the idea of a sustainable income for artists and creators.
- Experience with databases (SQL and NO-SQL), Docker, Kubernetes, DevOps is an advantage
- Experience interfacing blockchains (especially Ethereum Smart Contracts) is an advantage

We offer

An opportunity to work and influence decisions in a young, open-minded team. We introduce you thoroughly into our codebase and would love to learn and grow together with you. We're into results, not unnecessarily long hours. We offer a welcoming and no-fuss work environment and a flat hierarchy. We'd love to see your suggestions regarding code, infrastructure, or anything else.

- Full time position in Vienna, Austria
- Remote Work OK
- Starting immediately
- By Austrian law we are required to state the minimum full-time salary of 40.572€ for this position.

Apply by October 31st, 2018

Please send your CV, references to projects, GitHub profile (if available) and a picture of a crypto kitten to:
